Student DJ - \$75.00 – \$200.00 per night

### Lighting Package

Add a basic lighting package (2 analog lights) to any of the DJ packages for an additional \$100.00.

Add a club lighting package (lasers, DMX, etc.) to any of the DJ packages for an additional \$200.00

## **Additional Equipment Requirements**

### **Satellite Speakers - \$40.00 per speaker**

Satellite Speakers are extremely useful when needing sound in a separate room or trying to project sound to the back of a room. It will help with sound levels, speeches, sound quality and energy in the room.

### **Wireless Microphone - \$30.00**

A wireless microphone will you and your guests to speak on the microphone from anywhere in the room.

### **Subs - \$50.00 per sub**

Subs are used to add more bass to the music. If you want a lot more thump you should add a couple subs.

### **Power Amplifiers - \$50.00 per amplifier**

**These powerful 2400 Watt amplifiers are required for any additional passive speakers including our subs and/or our three way EV Tour X mid-high cabinets.**

### **Additional Lighting Effects - \$50.00 per fixture**

Additional lighting effects can add a lot to the atmosphere of the dance floor. No one likes to dance under bright fluorescent lights. It's much easier to get people in the mood to dance when the atmosphere reflects the party.

### **Hazer - \$75.00**

A hazer is used in conjunction with lighting effects. It is used to disperse particles into the air to allow the beams from the lighting effects to clearly be seen through. This is NOT a fog machine and it does not have the characteristics of a fog machine.

[Sorry...we do not offer the following:](#)

Fog Machines – Are known to sometimes set off fire alarms and create an unpleasant odour.

Dry Ice Machines – Are known to create a slick or slippery floor which is dangerous.

Bubble Machines – Are known to create a sticky/slippery film and can cause damage to certain fabrics. Eg. Carpeting, people clothes, etc.

## Additional Service Offerings:

**VOXBOX Studios DJ Skool** – [www.voxboxstudios.com](http://www.voxboxstudios.com)

Everyone knows that youth and adult functions don't usually mix very well which is why we are expanding our DJ school services to weddings as well. We can keep your kids and youth entertained while the "grown-ups" have a great time with the family. Now the parents don't have to worry about entertaining the children while trying to catch up with family members they haven't seen for years. Ask us about how we can turn the kids at your function into superstars for the night.

## NEWEST OFFERING for 2010 Weddings

### The Kissing Wheel

"The Kissing Wheel" is our newest offering and we provide it for **FREE!!!** (only one wheel available on a first come first serve basis)

The Kissing Wheel" is a 42" prize wheel with numbered slots. Each slot (1 – 5) represents a prize (worth a minimum of \$25.00) to be won but if they land on the "logo" slot then the bride and groom are required to kiss.

Suggestion: We suggest that you use this wheel to not only add some interactivity through-out your evening but possibly to raise some money for either a charity of your choice or for your honeymoon.

How To Play: Your guests are asked to engage in trying to get you to kiss by donating a minimum \$5.00 donation to spin the wheel. Whether they land on the logo or on a numbered space your guests always come out as winners.

## Fun Facts About euroPRODUCTIONS DJ Services

### Fun Fact #1

euroPRODUCTIONS is the DJ Service for VOXBOX Studios DJ Skool. VOXBOX is the ONLY DJ SCHOOL in all of Alberta. We are currently running DJ courses in Calgary only but are preparing to expand our DJ school across Canada and into the U.S. We currently have over 35 new DJs taking classes on a weekly basis and that number is growing. We only employ the best club style DJ's in the world to instruct in our courses and work our shows. Our instructors include DJ Damage of Calgary and Canada's premiere female DJ, Michelle C. In hindsight, the instructors started to realize how valuable it was to teach classes for their own personal development. It's inevitable that when you are practicing your DJ skills with students for upwards of 5 hours EVERY DAY, you are going to be very good at what you do!

### Fun Fact #2

We are the only mobile DJ Service in all of Canada who produces its own radio program on FM radio. We encourage you to listen to our radio show and get to know the personality that is DJ Damage. You can find out more about our radio program on our "Sunday Night Groove Skool" FB Group. If you do not have access to FB please visit the VOXBOX Studios website to listen to the links on there.

### Fun Fact #3

You can find us on YouTube! Yes, that's correct! If you want to learn more about our performance, quality and style you can watch videos of us on YouTube.

### Fun Fact #4

We are a young, dynamic and growing company who realizes that it's not possible to put on the same type of performance with simply a laptop or ipod player as you can with "two turntables and a microphone." ☺

We use the old school "club style" of mixing and performing because we don't want our clients and their friends to be confused about whether we are actually performing or whether we are actually working on a proposal that's due on Monday for work while a pre-programmed playlist does the performing for us.

### Fun Fact #5

We realize that everyone is tired of hearing DJ's recycle the same old songs in the same order at EVERY function you go to which is why we make a promise not to play the those same old songs voluntarily. If you really want the YMCA played at your function we will accommodate but we also realize that there is SO MUCH good music out there that it is unnecessary to play all the same tracks over and over again.

### Fun Fact #6

While some DJ's feel it's o.k. to use music obtained from sources which are considered *illegal* when using the music for commercial purposes (such as public file sharing sites or itunes) and then charging the client for overhead costs they don't even have. We feel it's important that a DJ company have integrity and follow all of the rules and laws that have been laid out by the music industry. Not only do we subscribe to multiple "*legal*" music distribution sites, we also have obtained the proper licensing for digital music rights and CD copies from the Audio Video Licensing Agency of Canada.

### Fun Fact #7

You can now follow us on Facebook, Twitter, watch our demos and instructional videos on YouTube.com and listen to our radio show on CJSW 90.9 FM. For more info on how to join see the information below...

Facebook Group – Sunday Night Groove Skool

Twitter – Follow - DJDamage\_

YouTube – Look up: voxbox studios or europroductions

Sunday Night Groove Skool on CJSW 90.9 FM (Every Monday Morning 1:00 – 3:00 AM) Is this too late?

Then you can listen to links of the show at your convenience on our "Sunday Night Groove Skool" FB Group!

Have fun watching and listening and we look forward to working with you!
